Parent/Family Engagement and Involvement in Education Policy

The Board of Trustees believes that engaging parents/families in the education process is essential to improved academic success for students. The Board recognizes that a student's education is a responsibility shared by the district, parents, families and other members of the community during the entire time a student attends school. The Board believes that the district must create an environment that is conducive to learning and that strong, comprehensive parent/family involvement is an important component. Parent/Family involvement in education requires a cooperative effort with roles for the Office of Public Instruction (OPI), the district, parents/families and the community.

This policy shall be made available to all interested individuals upon request and posted on the District's website.

Parent/Family Involvement Goals and Plan

The Board of Trustees recognizes the importance of eliminating barriers that impede parent/family involvement, thereby facilitating an environment that encourages collaboration with parents, families and other members of the community. Therefore, the district will develop and implement a plan to facilitate parent/family involvement that shall include the following six (6) goals:

1. Promote families to actively participate in the life of the school and feel welcomed, valued, and connected to each other, to school staff, and to what students are learning and doing in class;
2. Promote families and school staff to engage in regular, two-way meaningful communication about student learning;
3. Promote families and school staff to continuously collaborate to support student learning and healthy development both at home and at school and have regular opportunities to strengthen their knowledge and skills to do so effectively;
4. Empower parents to be advocates for their own and other children, to ensure that students are treated equitably and have access to learning opportunities that will support their success;
5. Encourage families and school staff to be partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs; and
6. Encourage families and school staff to collaborate with members of the community to connect students, families, and staff to expand learning opportunities, community services, and civic participation.

The Board of Trustees, in consultation with parents, teachers, administrators, and students has adopted this District plan for meeting these parent/family involvement goals:

1. Provide activities that will educate parents/families regarding the intellectual and developmental needs of their children at all age levels. This will include promoting cooperation between the district and other agencies or school/community groups to furnish learning opportunities and disseminate information regarding parenting skills and child/adolescent development.
2. Implement strategies to involve parents/families in the educational process and laws regarding parent/family rights, including:

- Keeping parents/families informed of opportunities for involvement and encouraging participation in

various District programs.
